

**Declaration on Candidacy**  
**Statement of Interest and Qualification**

To whom it may concern,

I am declaring my candidacy for the upcoming available position on the LLCC Water Committee. In this community, at this time, it appears that the Water Committee has challenges that will require creative thinking, clear goals, and concise planning for the future stability of our aging water systems. It would be my honor to provide what I can to ensure that we continue to have clean water, distributed in the most stable, and effective manner for consumption, as well as fire suppression!

Before moving to LLCC a little less than a year ago, I was a professional Firefighter for over 32yrs with the Aberdeen Fire Department. I retired as a Captain/Medic. My duties included fire suppression, pre-hospital medical care, personnel management, education (departmental, and public), planning, budgeting, fleet maintenance, facility maintenance, among other related duties. Within the scope of fire suppression, I was expected to have a good understanding of the water distribution in the jurisdictions I operated. I also have a good working knowledge of hydraulics as they pertain to distribution, and fire flow. I do not have any working knowledge of water treatment, or standards of potable water, but I look forward to the opportunity to learn, especially as it pertains to our LLCC systems.

I am married for over 32yrs to my wife Jodi. We have two grown children who we raised in the Olympia area. We feel blessed to have found LLCC as a place to call home.

Sincerely,

  
Wallace Montz

Div. 1, Lot 32
