Why I am Running

The last few years of HOA management have raised my concerns. We have a special opportunity to set our community up to **thrive**. I'm asking for your trust, and vote, so that I may be elected in service of this important work.

Concerns

I do not believe that our water system needs have been clearly shared or communicated. The increased dues and water rates have negative impacts for many of our neighbors. I hope for right-sizing and balancing budgets with sustainable rates that are affordable for all. Lastly, the investments and budgets our HOA creates are undermanaged and I hope to bring more attention on this.

Strengths

I bring decades of project and budget management and an eye for discernment. Seeing the "big picture" and asking detailed questions is one of my strengths. I have first-hand experience with the diligence and care present in the committees, yet I also understand that many people contribute to LLCC in other ways.

I am passionate about serving the whole of our community. From those who are affluent to those experiencing tough times; we all live here together.

Commitment:

As a community member I have been outspoken and assertive about my beliefs. If elected, I am committed to serving with the integrity expected of a board member. I have lived in LLCC since 1982 and bring a generational perspective. I've seen what has changed over the years and have hope for how we might hone.

Lake Limerick is an incredible place to live because it offers something for everyone to enjoy. I'm invested in keeping Lake Limerick affordable, enjoyable, and transparently well managed.

Sincerely,

Mandy Paradise
