

## **Dan Cossano Water Committee qualifications and Interest**

I am currently an active member of the water committee. I have 35 years of System Engineering and Management experience. I have been active in the community for the last 16 years.

I believe the priorities of our committee is to ensure safe and reliable water is supplied to the entire community now and in the future. I also support improving our system and its operation to provide limited fire flow through hydrants if the LLCC boards of directors approves pursuing this option.
