

## Greenbelt & Trails Committee Minutes

Thursday, November 3, 2022, 6:00 PM  
Crow's Nest (no hybrid)

### Members:

Dean Dyson  
Mary Ann Wagner  
Sandra Ohara Nelson  
Sue Klemp

### Guests

Dan Richter, Terry Bruso

#### 1. Fish Docent Update – Sue

Sue reported that everything seems to be ready for Scott Steltzner's presentation on the salmon migration on Cranberry Creek into Lake Limerick and into Cranberry Lake this Saturday the 5<sup>th</sup> of November at 2:00 PM at Anglia Park.

#### 2. Trails update – Dean

No work has been done on this since the last meeting. Gave Dan Ritter the small plot map that Dean had drawn possible walks on streets and some existing trails that members could use for hiking and stay off the high traffic roads. There are possible hikes in all divisions. The hope is that Dan can find a way to make the maps larger so members can use them to find good safe paths for walks throughout the community. Dan also has experience with trail clearing using small machinery, which may be useful in the future if the HOA plans to create trails in greenbelts.

#### 3. Litter issues – Dean reported for Tam

Tam said that she talked to Public Works and found that Lake Limerick's request to do litter pickup along Mason Lake Road was approved at the last Commissioner's meeting, so we are just waiting for the final go ahead.

#### 4. Dog Park – Dean

Dean said that investigating ideas for a dog park off Road to Tralee continues. Several other people have offered suggestions. Dan Richter has drawn up 4 possible plans for putting a dog park here. Terry Bruso attended this meeting and presented his ideas for a dog park on the back side of the dam at Anglia Park. Terry made a comparison between putting a dog park on the dam and off Road to Tralee. His comparison is attached.

5. There was a short discussion on trails in the HOA's greenbelts. Terry Bruso said that he has had some experience in creating trails on forested properties. He said he would be willing to look at some of the greenbelts with a thought of creating trails

Next meeting Thursday, December 1, at 6:00PM, `Submitted by Dean Dyson
