

Greenbelt & Trails Committee Minutes

Thursday, March 2, 2023, 6:00 PM
Crow's Nest (no hybrid)

Members Present

Dean Dyson
Sue Klemp
Tamra Ingwaldson
Dan Richter
Janet Richter

Guest: Terry Bruso

Motion made by S. Klemp and seconded by T. Ingwaldson to accept the February minutes. The motion passed with no nays.

1. Trails update

Terry Bruso proposed using existing trails and dirt roads on the property north of the LLCC property for hiking and bicycle riding. This property is owned by JLLG LLC. Although many people already hike and ride on these trails with no objection, more work needs to be done on this idea before presenting this to the LLCC members so that this possible privilege is not abused.

Dan Richter has developed maps of LLCC property that can be used on phones or other devices to show members possible roads and existing trails in the community for relatively safe hiking. Hopefully these and physical paper maps will be ready for use in April. I feel these maps are so well done that other projects in the community will be able to use them for planning.

2. Adopt-a-Road Litter pick-up

Tamera I. reported that everything is ready for the first litter pick-up day. It is on March 25th with the volunteers meeting at the Inn parking lot at 9 AM. All participants must view the training film before the day of the pick-up. All needed equipment will be handed out on the 25th. Dress for the weather.

3. Dog Park up-date

Dan Richter made a map of the proposed Rd. of Tralee site that shows fencing, parking lot, bridge over the drainage ditch and other features. This can be used to start getting bids and other needed approvals and checking off items from the task list.

4. Greenbelt tree cutting policy

No work has been done on this topic this month, so nothing to add.

Next meeting on April 6th
