# LAKE LIMERICK WATER COMMITTEE Minutes October 12, 2013

The meeting was called to order by Chair Phyllis Antonsen @ 9:10 a.m.

Members Attending: Chair Phyllis Antonsen, Secretary Don Bird, Treasurer Scott Carey, and Steve Saylor. Brian

Smith and Ken Ayres are excused.

Employees: Sheila Hedlund

Guests: None

#### **Approval of Minutes**

**A motion was made** by Scott Carey, seconded by Steve Saylor and passed with no Nays as follows: To approve the Minutes of September 14, 2013 as written

Additions to Agenda: None

Comments from Guests: None

#### **Financial Report**

1) Review of End of Fiscal Year Profit & Loss Statement.

2) Service disconnect status, 25 past due accounts paid in full, with 11 past due accounts making partial payments.

3) Edward D Jones account status - Statements will be prepared for the next meeting

A motion was made by Don Bird, seconded by Steve Saylor and passed with no Nays as follows: To approve the Financial of September 2013 as presented

Action Items: No changes

Water Distribution Manager's Report: Attached

#### Correspondence

1) Forgiveness letter - Barbara Slack

A motion was made by Scott Carey, seconded by Steve Saylor and passed with no Nays as follows:

To approve the Forgiveness Request from Barbara Slack in the amount of \$114.00 plus late fees of \$17.20 for a total forgiveness amount of \$131.20

#### **Old Business:**

Don Bird reported that the Well#6 Meter Panel that controls the tank depth has been repaired with a few minor adjustments.

New Business: None

Announcements Next meeting date - Saturday, November 9, 2013 @9:00am

#### Motion to adjourn.

A motion was made by Scott Carey, seconded by Steve Saylor and passed with no Nays as follows: To adjourn the meeting at 9:30 a.m.

Lake Limerick Water System October Meeting

The general condition of the water system is good with no concerns as to system pressures or water availability to the customers.

#### **Well Conditions:**

Well #1 booster pump is operating with the timer to prevent it from "competing" with the other booster pumps on the system with pressure settings.

Well #2 is still in stand-by and its use will only be required in extreme cases.

Wells #3A and B are operating normally.

Well #4 is operating normally.

Well #5 is operating properly.

Well #6 is operating properly, but had some problems in September. The indicator for the reservoir level was giving an erroneous signal which prevented the well pump from starting. Under normal conditions this indicator would tell the well pump to run when reservoir level is low and turn off when the reservoir is full. I asked Don to take a look and he cycled the power to reset the indicator. Don also adjusted the programming to give a more accurate representation of actual water levels in the reservoir.

We found a suitable replacement for the depth sensor at Well #6, All the information was given to Sheila and it was ordered in the last fiscal year. We will install it as soon as it is available.

I have still not gotten any information from the State about the original approval of this well and I also have not gotten the DVD from Arcadia from the well cleaning.

#### Water Sampling:

The monthly routine bacteria samples were unsatisfactory. We found very low levels of non-harmful bacteria in three samples on Balantrae Drive. Steve flushed the water mains extensively and we took more samples. All of the most recent samples had no detection of bacteria. An informational letter was sent to all the customers on the system as required by DOH.

#### Water Usage:

Water usage calculations indicate a loss of 1.8%. Now that we are not replacing service meters it appears the water accounting errors have gone away.

#### **Customer Concerns:**

Steve had 5 utility locates, investigated 2 high water user and replaced a service meter. Steve also cleaned the gutters at Well #6. The roof at Well #3 has a small leak at a screw hole and Steve is hopeful he can fill it with caulk.

Thoughts:

Steve is still playing "phone tag" with Backflow Pros to see if they are still interested in purchasing the Backflow Assembly Test Kit. We are still waiting.

The seasonal workers from the golf course will be available this month and we are hoping to keep them on for a few days to help bury the control wire at Well #3, put in stairs and do some landscaping at Well #6, and help excavate the reservoir drains at Wells #1 &4.

Larry has replaced the door for the booster house at Well #3. We will be buying OSB paneling for the inside and getting the insulation covered.

We received the sanitary survey report from June 28th. There is nothing of significance to deal with. We will take the pictures she requested well before the deadline and I will address some of the other recommendations in a letter. She has extended our next sanitary survey from 3 to 5 years, which is good news.

Jester is preparing the response to the WSP review letter. The WSP should be approved soon.

William Bernier
