

EXHIBIT A - DOCK, FLOAT AND BOAT LIFT PERMIT APPLICATION

A1. General Instructions: This permit category applies to the planned purchase, construction, refurbishment and/or installation of docks, floats and boat lifts in Lake Limerick or Lake Leprechaun. An approved permit is required before work on any project of this nature can be initiated. **Homeowner must comply with the Dock, Float and Boat Lift Guidelines available on the LLCC Website.** Applicant may be requested to attend the next Lake/Dam Committee meeting to answer any questions the committee may have regarding your application. Unanswered questions may delay approval. Permit approval is granted by the Architectural committee and is valid for ONE YEAR. Work must be started within that period of time.

A2. Permit Application Type (check all applicable boxes)

- a. New Dock or Float
- b. New Boat Lift
- c. Refurbish or Replace Dock Float Boat Lift

A3. Project Description (please describe your project, including type of structure, materials and planned usage). Attach supplement if more space is needed:

A4. Attachments (Include the following):

- a. A general layout (**use attached plot plan form or separate sheet**) showing proposed location of dock, float or boat lift in relationship to both shoreline and projected lot lines into the lake. Note that docks must be setback 10 feet from side lot line projections into the lake. Boat lifts may be placed within this 10-foot setback area but must not extend over the side lot line projection.
- b. For docks and floats, manufacturer’s specifications on flotation materials and general construction drawings/sketches.
- c. For boat lifts manufacturer’s data and general construction drawings/sketches.
- d. Lot owners are responsible for compliance with all State and local regulatory requirements.

A5. On Site Inspection: The Lake/Dam Committee may conduct an on-site inspection prior to permit approval. The owner/applicant is responsible for identifying lot lines at the shoreline to aide in determining lot line projections into the lake, staking the corners of any dock structures on the lot shoreline and. This must be accomplished prior to the actual on-site inspection.

Do not begin any work until this application has been approved and a permit has been issued. The Architectural Committee meets monthly (schedule available on LLCC website) and applicants are encouraged to attend.

Lake Dam Concurrence for Docks/Floats/Boat Lifts/Lake activities: (comments required, unless approved)

- Approved Conditionally approved Disapproved
