

Greenbelt & Trails Committee Minutes

Thursday, March 7, 2024, 6:00 PM
Crow's Nest (no hybrid)

Members:

Dean Dyson
Phyllis Antonson
Allan Sande
Guest: John Ingemi

Motion: Moved by Phil A. and seconded by Allan S. to accept the minutes for February as written. Motion passed unanimously.

John I. presented the motion from the Bylaws Committee to move the October budget meeting from October to September.

John I. also said that the Bylaws Committee was also discussing if renters who are not authorized to use Lake Limerick amenities could get some kind of "associate membership" that would allow them to do so. This possibly could affect who could use a dog off leash area if this type of area is put together.

Trail – update

It was suggested that signs are needed so walkers can identify where the trail between Dunoon and St. Andrews is and so walkers and golf carts do not go onto adjacent properties. Other trails may need signs too.

Litter Pick-up

The January 24th litter pick-up along Mason Lake Road went very well. 17 people attended the event which was enough volunteers so that some also picked up litter along Dartmoor. The next litter pick-up event will be scheduled for May or June.

Dog Off Leash Area

We are waiting for the survey of the members before going on with this project.

Emergency Management

Kristi Gray has been out of state for a while, so this effort has been mostly on hold. Bob Burbridge, the head of Mason County's Emergency Management has contacted Kristi recently so things will be moving on.

Tree planting in greenbelt along Mason Lake Road

20 fir and cedar trees have been planted in the greenbelt along Mason Lake Road with the outstanding help of the Golf crew. Thanks Javier and guys. We just need to keep an eye on this area to make sure the trees continue to grow and if there are other needs.

Article for Newsletter

Dean presented a draft News article for Lake Limerick's spring Newsletter.

Next month's meeting will be on April 4, 2024
