

Lake Limerick C.C.

est. 1966

June 27, 2024

Below are some updates for the Committee on our progress since starting on May 28th.

Lake Buoys

Gerardo installed 15 new buoys on the lake. These new buoys were installed with a galvanized chain link instead of the previously used cable which rusted out quickly.

Weed Treatment / Control

We (Teddy, Joel, Lake Advocates and I) had a meeting with Aqua Technex to discuss the proposed treatment.

Lake Leprechaun Valve

Water levels were low enough to access the lever. Chris confirmed that the guillotine valve, shaft and upper structure will have to be replaced. A meeting was scheduled with Ken Martig to obtain a consultation for recommended next steps.

Lake Tour

Joel hosted a tour of the lake on his boat. Dennis, Mitch, Teddy, myself and the office all attended. It was very informative, and it was a beautiful day for the tour. Thanks Joel.

Inn Island Bridge

I had the opportunity to look at the bridge and its condition with Teddy, Joel and Dennis. This is another project that is being scoped; repair or replacement has not been determined at this time. More to follow.

As we ramp up for summer and the holiday, there is certainly much to prepare for and projects to complete. With the help of everyone, we'll have a successful summer!
