

Greenbelt & Trails Committee Minutes

Thursday, June 6, 2024 @ 6pm

Crow's Nest (No hybrid)

Members present: Dean Dyson, Sue Klemp, Dan Richter, Janet Richter, Phyllis Antonson, Allan Sande, Sandy O'Hara-Nelson

Guest: John Ingemi

Members excused: Tamra Ingwaldson, Kristi Gray

Trail work update: Allan S. presented design and cost for trail signs. Dean D. will review costs and procure supplies. Dan R. will be working up the design for review at next committee meeting. Discussion on best spots to place new TRAIL signs has listed both trails near Dunoon and Penzance as the best trails to begin placing signs.

Sidewalk follow-up: Jan R. has volunteered along with Sandy O. to join Dean D. at the monthly meeting of the Transportation Improvement Program- Citizen Advisory Panel (TIP-CAP) on Wednesday June 12th, at 4:30pm to inquire about the process of adding needed sidewalks, speed bumps or even 4 way stops to our community.

Litter Pick-up: Successful litter pick-up on Saturday June 1st was attended by approximately 15 community members. Members not out on Mason Lake Road picked up litter around the community.

Next litter pickup will be sometime in September.

Dog Park Survey Request update: Although a survey has been completed there is no word on when the survey will be available to the community. Dean D. has viewed and responded to the survey and is happy with its content. It is the intention of this committee to request an update on when the survey will be available and how it will be communicated to the members. Sandy O has volunteered to work with President Mitch R. to improve the communication concerning the timeline to release and details on how the Board plans to communicate the survey to the membership. This committee is available to assist the Board as needed to help reach a larger portion of members this time around.

Emergency Management Sub-Committee update: No new update. Kristi will be looking into the new water billing system which has the capability to notify LL members in case of any water outages and/or boil water alerts.

Next meeting: Because our July meeting would fall on the 4th of July, we will have the meeting on the second Thursday, July 11th
