

September 13, 2024 – Architecture Committee Meeting Minutes

Present: Karen Summers, Odette Skinner, John Ingemi, Tamra Ingwaldson

Guest: Ronald Lansing

We reviewed 5 permit applications:

R. Lansing attended and shared his plans for the park model he would like to have placed on his property to use as a detached office. It met the appropriate location requirements, but since it's not technically a shed, it was conditionally approved pending board approval. No permit issued, nor payment taken at this time.

A. Johnson filed a permit to put in a fence. John agreed to do a site review to confirm property lines and height, otherwise it looks good. No permit issued, nor payment taken at this time pending site review.

J. Bykonen filed a permit for a 200sf shed. It meets our setback requirements, but due to the size is pending MC Permit approval. It is conditionally approved, and payment pending, pending MC Permit.

A. Thuette filed a permit to install a metal shed that she will cover all but the roof with siding. It met all of our requirements. Permit approved and will be issued when payment received.

M. Heidemann, filed a permit to install a galvanized fence for the backyard. It met all of our requirements. Permit approved and will be issued when payment received.
