

Greenbelt & Trails Committee Minutes

Thursday, September 5, 2024 @ 6pm

Crow's Nest (No hybrid)

Members present: Dean Dyson, Phyllis Antonson, Kristi Gray

Sidewalk follow-up: Plans have begun to develop questions for a Survey Monkey questionnaire for the LL membership on their feelings and the need of a sidewalk along St. Andrews (especially from the fire station to the Inn). Plans are also being developed to canvas those property owners with property along St. Andrews where a sidewalk might be placed. These surveys are required by Mason County to start the process to get sidewalks or walking paths.

Litter Pick-up: Next pick-up date: Saturday September 14. Tam has already sent out promotions for this event. Several individuals have already said that they would take part. Can always use volunteers. Meet in the Inn parking lot at 8:45AM.

Dog off leash area Update: Not enough committee members present to decide on the next step forward after what to this committee seemed to be a positive Survey Monkey result.

Emergency Management Sub-Committee update: Need to thank John Ingemi for getting email addresses of LL members into the water billing system (working on phone numbers too). This will allow a way to contact most of the members in the case of an emergency. It may also make communications (transparency) of all events and topics in LL easier and better. Many members have complained of the lack of communications in LL, this may improve this.

Salmon talk: Sue Klemp has already contacted the Squaxin for possible time.

Next meeting: Thursday October 3, 6:00 PM

Submitted by Dean Dyson
